

Ceiva LF2003 Internal Plastic Screen Frame Replacement

This is a guide to replace the internal plastic frame surrounding the display.

Written By: Casey Glasgow

INTRODUCTION

Replacing the internal frame on this device is very simple and requires minimal disassembly.

TOOLS:

- [T6 Torx Screwdriver](#) (1)
 - [Plastic Opening Tools \(optional\)](#) (1)
-

Step 1 — Exterior Frame and Matting

- Lay the device on its back, and rotate so the base is facing away from you.

Step 2

- Grip the frame with your fingers under the edge of the frame, and thumbs pushing down on the front of the device.

Step 3

- Lift up the frame with your fingers and push down the rest of the device with your thumbs.

Step 4

- Remove the frame and matte from the device.

Step 5 — Internal Plastic Screen Frame

- Remove the four 7mm Torx T6 screws.

Step 6

- Using the plastic opening tool or your fingers, lift up the frame from any edge.
- Remove the frame from the device.

To reassemble your device, follow these instructions in reverse order.
